Recd July 24thNewburgh July 26th '60

Mr MacLeod

Dear Sir.

Your favor of the 21st
Last was duly received and
I am much obliged to you
for the suggestions in regard
to the Bust of Dr. Hall.

You will be glad to know
that I had already made
the changes you suggest
while modeling the life sized
bust. It will be sent to the
foundry this week I think.
and I hope that when

finished it will meet
your approval.

Sincerely Yours

H. K. Bush Brown

My Uncle send his respects to
you

Bartlett.

Curator, Circum Art Gallery
Washington D.C.

Dear Sir

I have undertaken to write an illustrated art-life of the late Dr Wm Rimmer. If possible to obtain ^{a few} them it is intended to include some illustrations of some of Millet's, Blake's, & Bary's & Hunt's works, for the purpose of comparison. I write to ask you if you would be willing to let me have one or two photos from Bary's animals. Osford & Co will publish the work & the illustrations will be by the heliotype process.

Very Respy

Rec'd & Ack'd July 29th Phila. July 27th 1880
Pm The Lord Esq

Curator Librarian Gallery
Washington D.C.

My dear Sir: I fear you have thought,
you have thought about it
at all, that my claim for
insurance in your catalogue
calling Ed. Snappen. Ch. Jus
of Rome under the Ann
was without any better
foundation. That the claim
of Mr. Sturges you mention-
ed some where. I had the
pleasure of seeing you the
early part of the week. But
the truth is I have been too
busy

busy to attend to pleasure,
what with my professional
engagements & trip to Dublin
to see the Great Exhibition
& on my return writing up
the article for Mr. Kochler
which has just gone off
where I have had no time
for anything else.

Now to the point. Edmund
Shupper was not Ch. Just.
under the Amer. In 1791 he
was appointed an Associate
Justice of the Supreme Court
of Pennsylvania and on the death
of Ch. Just. Mr. Shann to the
executive chair of the Con-
stitution in 1799, Mr.

Justice Shupper was appoint-
ed by Gov. Mifflin Chief Jus-
tice which office he held
until 1805, when the in-
firmities of age, he then
being 77 yrs old, forced
to resign and on April 16th
1806 he died. This is history
and there is no room
to question it - "under
the crown" is all wrong.

My article on the Great
Exhibition will appear in
the Sept. No. of the Astor Review
& you will see what I say
about the restored Gibbs
Washington. The enclosed
monograph

micrograph I present
to your Library must it
may be acceptable, there
are but 50 copies print-
ed.

I shall hope to be in
Washington in the fall
when I trust the pamphlets
will be in such order
that I can see them

With pleasant rec-
ollections of our interesting

I am very dear friend

Yours very truly
Chas Henry Davis

Treasury Department

Office of the Director of Customs

August 4 1926

A. Hyde, Esq.

Secretary of Corcoran Gallery of Art,
Washington, D.C.

Sir:

The Department is in receipt of your letter of the 31st ultimo, in regard to the expected arrival of two cases of statuary at New York, intended for your Institution, and requesting shipment of the same to this City, without examination at the Port of arrival.

As a reply thereto, I enclose herewith copy of a letter, this day addressed, to the Collector of Customs at New York in

in the premises.

Very respectfully,

W. H. H. H.
Acting Secretary.

(One encl.)

Treasury Department,

9296 OFFICE OF THE SECRETARY,

Copies

Washington, D. C. August 4. 1880.

Collector of Customs,
New York.

Sir:

The Department is informed of the expected arrival at your port, about the 15th instant, of two cases marked "C. St. 5440/5441" containing statuary, the work of M. Ezekiel an American artist consigned to Messrs. Knauth Nachod & Kühne, of New York per the Italian Bark "Clementina," and intended for the Corcoran Gallery of Art in this city. Whether considered as having been imported by the Corcoran Gallery of Art.

Art, an Institution established for the encouragement of the fine arts, or as the work of an American artist residing abroad, the statue in question would be exempt from duty, on production in the latter case of the usual certificate. You are therefore authorized to permit the cases to pass without examination, and to be shipped to this city, free of duties.

Very respectfully,

J. K. Upton,

Acting Secretary.

About Ventilators,

Com on T.B. .
Pron to act

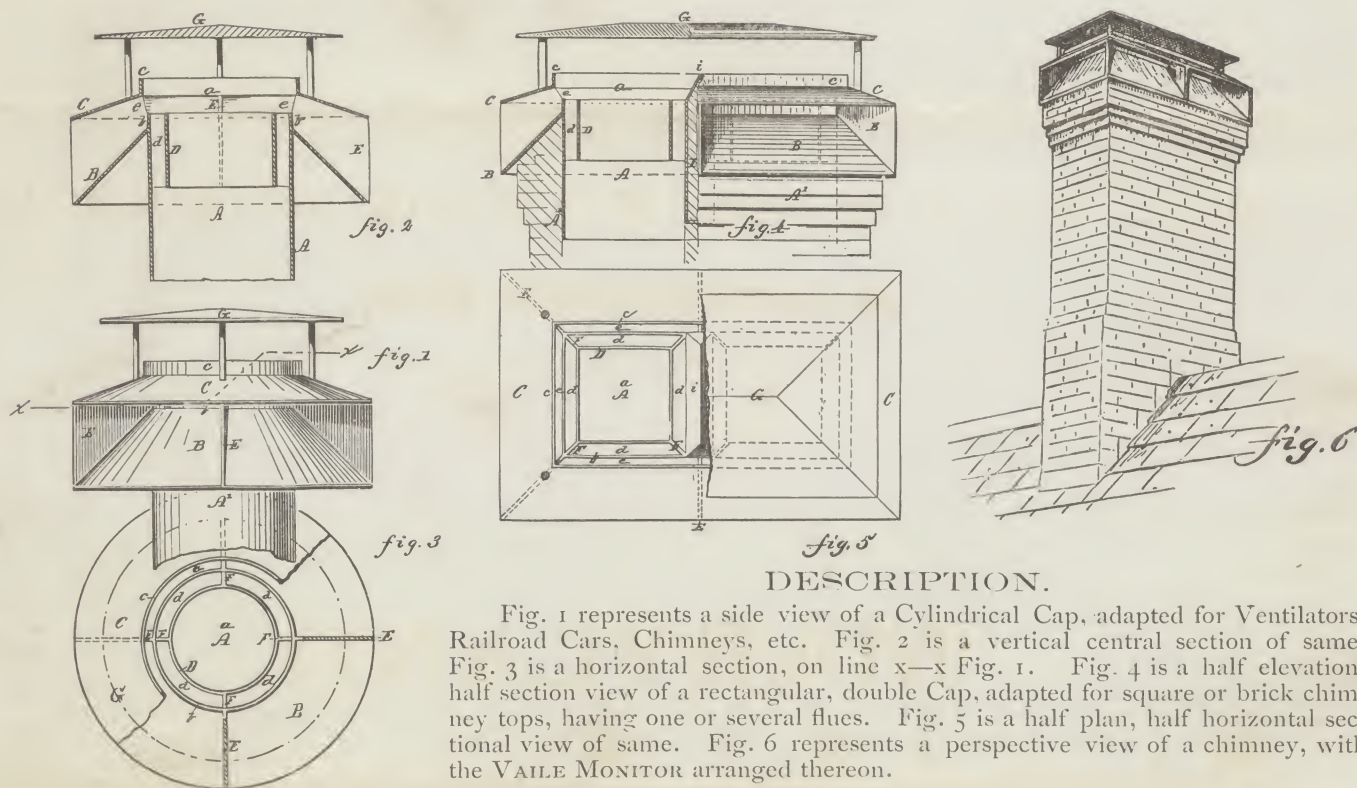

(9) ✓

THE BEST VENTILATOR IN THE MARKET!

Smoke & Gas in Buildings & Railroad Cars Prevented.

SMOKY CHIMNEYS POSITIVELY CURED.

PATENTED SEPTEMBER 5, 1876, and OCTOBER 23, 1877.

DESCRIPTION.

Fig. 1 represents a side view of a Cylindrical Cap, adapted for Ventilators, Railroad Cars, Chimneys, etc. Fig. 2 is a vertical central section of same. Fig. 3 is a horizontal section, on line x—x Fig. 1. Fig. 4 is a half elevation, half section view of a rectangular, double Cap, adapted for square or brick chimney tops, having one or several flues. Fig. 5 is a half plan, half horizontal sectional view of same. Fig. 6 represents a perspective view of a chimney, with the VAILE MONITOR arranged thereon.

WORCESTER, MASS, March 1st., 1878.

DEAR SIR: We would respectfully request you to examine the accompanying illustrations of the VAILE MONITOR VENTILATOR AND CHIMNEY CAP.

The operation of this Cap is based upon well known, scientific principles; is simple in construction, no machinery to get out of order, and will work equally well in any position or locality.

The force of the external wind currents passing through the inlets and across the ends of the draft passages will create an upward draft within the flue. Also, a current of wind in a downward direction against the top and side of Cap will cause an up draft.

The VAILE MONITOR is adapted for all purposes where a Ventilator or Chimney Cap is desired; it is always ready, and requires no adjustment whatever to cause it to act.

Smoky Chimneys are positively prevented, and a good draft secured, and in consequence of its sensitive action and regular exhaust, there is no escape of smoke and gas.

The down currents which frequently occur in chimneys situated at a less height than neighboring buildings are entirely obviated by the use of the MONITOR.

Odors from Closets, Sewer and Waste Pipes are carried off. As a Ventilator for **Public Buildings, Mills, Foundries, Engine and Gas Houses,** *it has no superior.* For **Railroad Passenger, Smoking and Sleeping Cars** *it is a decided success.*

The Square Cap is constructed upon the same principle as the Cylindrical Cap, and is designed for Smoke Stacks and Chimneys containing one or several flues. *It is the only Cap manufactured that will work satisfactorily on a chimney of more than one flue.* The style can be changed if necessary. It is ornamental, and a complete *protection of the masonry.*

The following letter is from OLNEY L. SMITH, ESQ., a Master Car Builder, with an experience of nearly a third of a century. He has used the VAILE MONITOR VENTILATOR for nearly one year.

P. & W. R. R., Providence, R. I., December 27, 1877.

CHARLES A. VAILE, Dear Sir:—Yours of the 18th, enquiring how the Vaile Ventilator is working is at hand. We have given it a thorough test against everything known, and are satisfied it is far ahead of any now in use; in fact, it is the only Ventilator we have used for the past twenty-five years that will clear a Passenger Car of smoke and gas. Have decided to equip our passenger cars, and furnish our buildings with it.

Respectfully, O. L. SMITH, M. C. B., P. & W. R. R.

Since the above was received, nearly all of their cars are fitted with the MONITOR,—using them on Stoves and Heaters, and as a Ventilator over Closets.

The large chimney (four flues) from the bakery and kitchen of the State Lunatic Hospital, at Worcester, was subject to frequent down currents, forcing the smoke and gas into the building. The Superintendent, B. D. EASTMAN, M. D., ordered a Monitor, which was placed in position September last.

The following is a statement from Dr. Eastman:

Worcester, February 13th, 1878.

I am very glad to be able to say that the Ventilator has worked so far to our entire satisfaction.

(Signed,)

B. D. EASTMAN.

business calls for him

Dear sir:-

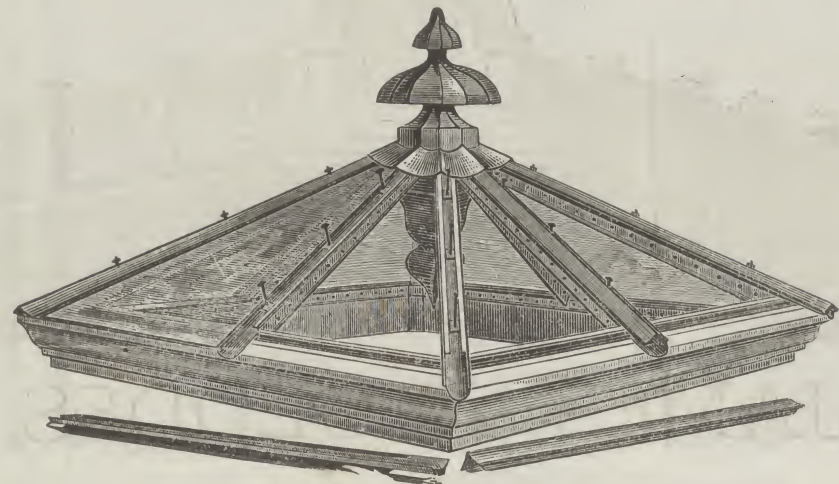

When in your city last, Mr. Leod
was absent but expected to return about the
first of August - Not having heard whether
there had been any decision in regard to the
Ventilators I thought best to make the inquiry.
As if Mr. C. has returned I will go to Washington
to confer with you further in reference to the matter
should it be necessary.

Very truly yours
